DAMPFZENTRALE

17. APRIL 2018

18.00 - 23.00

表演节日

This architectural floor plan shows a building layout with four main functional areas. The Turbinensaal (Turbine Hall) is the largest room at the top, featuring a grid of structural columns and rows of equipment. The Kesselhaus (Boiler House) is located below it, also with a grid of columns. To the right of the Kesselhaus is Foyer 2, which contains curved circulation paths and small service units. At the bottom right is Foyer 1, a large open space with a central staircase and several small tables or service points. The plan includes various architectural details such as walls, doors, windows, and structural elements.
